Greetings,

There are times when we ask ourselves what else will we put up with before we've had enough. I think 2020 has shown us what we will no longer tolerate from individuals within our societies.

No more abuse from institutions that are supposed to protect us; no more abuse from systems that are supposed to help us; no more tolerating government officials who do not put the interest of their constituents first. The time to let go is now; the straw that broke the camel's back is the acknowledgment of the purposeful misuse of the UNITED STATES POSTAL SERVICE. The USPS is an institution that no matter where you live, what color you are, how much money you make works for all American people!

How dare the President use the USPS as a pawn to win an election and acknowledge to the people that that is what he is doing! Now is the time for all Americans of all backgrounds to stand as one America and demand full services restored to the USPS; Mr. DeJoy removed from the USPS and make NOVEMBER the best turnout of voting in America's history. We do not have to put up with this misuse and disrespect for US the American people! The only way to show 45, the GOP and others is to remove them from office.

November 3, 2020 should be the day of reform for America. Give us back our USPS and our country; let your voice be heard let's show Washington why Mail-in ballots are necessary and will work to regain America's strength and courage to fight against the oppressors and oppressions here in the USA.

We are one - We are America! Let's get our power back!

Thank you
Peace and blessings
